

Everything and Everyone Can Be a Blessing

God has given us a beautiful world to live in. Everything is good that God created, and God wants us to enjoy its goodness and beauty, and benefit as much as possible from our use of all things.

Everything and everyone can be a blessing for us, or we can suffer from our use of things, and dealings with other people. Every day should be filled with experiences that leave us contented, at peace, wiser, and happier.

The more we know God's plan for us, the more we feel a part of his plan of salvation for ourselves, and for others. The more we understand the support he gives us, at every moment that we try to cooperate with him in carrying out his plan for ourselves and for others, the more we will understand the goodness of his ways, and his most sincere and genuine love for us all. This is what adds up to the happiest, most satisfying, and most fruitful life we can live in this world.

God has created all things and people to be enjoyed by us, and to lead us to enjoy the greatest goodness and the most beautiful; which we find only in God himself.

The more of God we admit into our lives, the more our lives will be meaningful and delightful. Without God, life is dull, meaningless, and boring much of the time. With Christ, who is God, life is an exciting and delightful experience. Never a dull or boring moment when we go through life looking for goodness and beauty in all things that God created, especially humans; and relating to them prayerfully and charitably.

Have you ever experienced the feeling of peace and joy so strongly in the midst of a sickness, or some other setback in life, that you were oblivious to the evil of the situation? This can happen when we love God, and experience his presence strongly in life; when God is with us, and we are aware of his goodness, everything is all right; because we are in possession of the best that ever can be, our God who loves us.

So turn to God in prayerful thought and action, as often as you can everyday. The more we are caught up in God with mind, heart, and with all that we are, the more we will experience the happiness and satisfaction in life that God created us to experience.
